Bamboo

As a rapidly renewable resource, Bamboo is carefully harvested to enable repeated growth from the same root stalk. This process allows it to reach maturity in a few short years. Since Bamboo can be grown naturally and harvested without a negative impact on the environment, it provides an excellent alternative resource to traditional timber. By choosing Decore-ative Specialties and our Bamboo product offering, your business can provide a stylish, environmentally friendly option for your customers.

BAMBOO EDGE GRAIN AMBER - 1 PLY

BAMBOO FLAT GRAIN HONEY - 3 PLY

BAMBOO FLAT GRAIN AMBER - 3 PLY

Grain Details:

EDGE GRAIN

FLAT GRAIN

Call for a quote.

Notes:

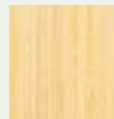

- Available in most 3/4" door styles.
- Flat Grain is a 3-ply material so the core will be exposed on edges and shaped details. Not recommended for solid 5-piece doors due to exposed core.
- Due to finish sanding, final thickness of product will be slightly under 3/4" thick.
- No Added Formaldehyde (NAF) option available. Contact Customer Service for pricing and clearly specify No Added Formaldehyde material is needed when ordering.

DOVETAIL DRAWER BOXES

BAMBOO EDGE GRAIN AMBER - 1 PLY
Shown on 5/8" Dovetail Drawer Box (613)

Color and Grain Options:

BAMBOO EDGE GRAIN HONEY - 1 PLY

BAMBOO EDGE GRAIN AMBER - 1 PLY

Notes

- Available with 5/8" and 1/2" sides and 1/4" bottom. Call for a quote.
- See our Drawer Box literature for additional information on our drawer box offering.
